APRIL 2017

WHAT'S INSIDE?

- April Events
- Fun Facts
- Brain Teaser
- Money Saving Offers & Much More!

WHAT'S THE ANSWER?

- Do Elephants have knee caps?
- How long do NFL players actually play in a game?
- Why do we shiver?

The Answers to These and Many More Questions Inside!

RANDOM THOUGHTS

APRIL 2017

A Free Monthly Newsletter from your friends at **JERRY LAMBERT AUTOMOTIVE**

The first theorist to suggest that birth order can affect human psychology was Alfred Adler (1870–1937). In short, he argued that firstborns are “dethroned” by a second child, which permanently affects the firstborn’s personality. Additionally, younger and older children may be spoiled and pampered, which also permanently affects their later personalities.

THANK YOU

All of us at Jerry Lambert Automotive want to thank you, our great clients, for the Many Friends, Neighbors, Co-workers and Family Members you refer to us.

Thank you for your Trust and Confidence in us.

We couldn't do it without you

The first one-dollar bill was issued in 1863 as a Legal Tender Note (United States Note) with a portrait of Salmon P. Chase, the Secretary of the Treasury under President Abraham Lincoln.

APRIL EVENTS

April 1	April Fool's Day
April 7	National Walk to Work Day
April 9	Palm Sunday
April 10	National Siblings Day
	Passover Begins
April 14	Good Friday
April 15	Income Taxes Due
April 16	Easter Sunday

Elephants are the only land mammals that cannot jump. Unlike all other mammals on earth, elephants do not have kneecaps. Therefore, they are unable to bend their legs and acquire the needed propulsion to leave the ground.

It's spring fever. That is what the name of it is. And when you've got it, you want — oh, you don't quite know what it is you do want, but it just fairly makes your heart ache, you want it so!

~Mark Twain, Tom Sawyer, Detective

SAVE \$25.00 Your automatic transmission works hard for you, take care of it

SERVICE YOUR TRANSMISSION

Save \$25.00 on either a transmission service or a transmission fluid exchange

Be kind to your transmission!

NOT GOOD WITH ANY OTHER OFFER

GOOD THROUGH 05/31/2017

Free Alignment Check

We will set the car up on or newly updated alignment system, check the front end parts, check tire pressure and check all the steering geometry with the latest in alignment technology to make sure your car steers properly and that it will get the best tire life possible
*Offer valid only with this coupon
 Adjustments extra
 Expires April 30th, 2017*

Who are the kings in a deck of cards?

The four kings, for example, are based on real rulers: the King of Diamonds represents the wealthy Julius Caesar; the King of Clubs is the brutal Alexander the Great; the King of Spades represents the strong but kind David of Israel; and the King of Hearts represents the emotionally disturbed Charles VII of France.

How long do NFL players actually play in a game?
 An average professional football game lasts 3 hours and 12 minutes, but if you tally up the time when the ball is actually in play, the action amounts to a mere 11 minutes.

?!BRAIN TEASER?!

What are the next three letters in the following sequence? J, F, M, A, M, J, J, A, __, __, __

Answers on page 3

Pina Colada Fluff

Ingredients

- 1 3.4 oz vanilla instant pudding mix
- 1 20 oz can crushed pineapple (do not drain!)
- 1 8 oz container Cool Whip (I used lite) - thawed
- 2 cups miniature marshmallows
- 1 cup shredded sweetened coconut
- 1/2 cup chopped nuts (your favorite)

Instructions

1. Combine pudding mix and the entire can of crushed pineapple in a large bowl.
2. Stir until completely combined.
3. Fold in Cool Whip, marshmallows, coconut, and nuts.
4. Chill until ready to served.

Why do we shiver?

When we shiver, our bodies are doing the opposite of sweating. Sweating cools the body by putting a layer of liquid on the skin. Shivering tightens the skin and shakes the muscles, a process that conserves and generates heat.

FREE TOWING

We will provide free towing anywhere in the Salt Lake valley

For any engine or transmission replacement

This month we're making deals. In fact we are going to call it

"Choose your deal Month"

Deal #1

10% off the labor or Any service or repair
 Save up to \$100.00

Deal #2

\$15.00 off
 Brake Replacement Service, Front or rear

Deal #3

Tire rotation with any oil change service
 a \$20.00 value

SHORT ON CASH?

Don't put off needed
Services & repair

NEED AUTO REPAIR?

We now have financing available

*6 months same as cash on repairs over
\$299

* with credit approval

Take advantage of our revolving credit
program.

Pay it off—use it again—No interest

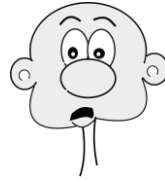

Call Nancy for more information or
preauthorization.

One economist estimates that at least 5% of McDonald's revenue comes from soft drinks. A fast food soda (18 oz.) that sells for \$1.99 costs the restaurant about \$0.16, a markup of over 1,250%.

A representative from Oklahoma, Linda Larsen attempted to lower the divorce rate by proposing a law that would require the following before a marriage license would be issued: neither party should snore, at least one meal a week should be prepared by the non-primary cook, toothpaste should be squeezed from the bottom of the tube, pantyhose shouldn't be left hanging in the shower, and the toilet seat should always be down when not being used.

Easter always falls on the first Sunday after the first full moon after the spring equinox.

While it is a myth that stress can turn hair gray, stress can cause hair loss. In fact, *telogen effluvium* (hair loss) can begin up to three months after a stressful event.

Taking Naps- A nap should be about fifteen to thirty minutes in duration. If you nap longer than thirty minutes your body lapses into delta, or deep sleep. Delta sleep is difficult to wake from and if interrupted or just completed, can leave you feeling terribly groggy.

Maintenance is no Myth

There have been a lot of questions posed about why we should do maintenance on our cars. Oxidation of fluids will occur with temperatures above 175 degrees. Most cars today will run between 195 and 220 degrees. If you tow a trailer or boat that temperature will increase. Oxidation will diminish the lubrication ability of the fluids, which will cause varnish to buildup in valve bodies of your transmission, p/s gear, and antilock brake systems. These systems are also vented systems, which mean they are susceptible to atmospheric pressure, which has moisture in it. Moisture in those systems can attract electrolysis. Electrolysis is electricity from the electrical system attacking different types of metal parts, trying to use them as a ground, causing a corrosion to occur similar to rust. Corroded parts, such as a rack and pinion steering gear can start to stick and will create a surface that cannot seal and will start to leak. The same goes for cooling systems, and antilock brake systems. Transmission fluids will no longer have the proper lubrication qualities, causing failed bearings, sticky valves, hardened seals, and burnt clutches. Some of today's fluids are made to go longer, but we recommend fluid flushes to be done about every 30,000 miles. The fluids in each system may vary, so if you check with us, we can make the proper recommendations for your vehicle. Because of proper maintenance, we are seeing the life span of some of our customer's vehicles to be upwards of 300,000 miles. WOW, we never saw this in the earlier years of car repair and maintenance.
